

Meeting Agenda

Tower iLLuminati

&

Prof. Bolden

Meeting Goals

1. Review customer meeting
2. Discuss possible software features and design choices
3. Receive feedback on design brainstorming from Mentor
 - a. 'Yes, that's a good idea' OR 'No, don't do that'
 - b. Any other relevant advice.
4. Review/alter immediate tasks
5. Post meeting minutes

Review of Customer Meeting

Met with Dr. Rinker on Tuesday, September 16, 2014 for approximately 1 hour. The general outcome of this meeting; Dr. Rinker's main requirement is to make it easier to animate (i.e. better interface, more features). During the meeting Dr. Rinker presented the TowerLights hardware and mini-setup. He also provided a general overview of how the software creates the tower animator file and how it is then used by the hardware to produce the lightshow.

What are our Immediate Tasks

1. Finalize Team Contract
 - a. Identify and assign remaining roles
 - b. Sign it
2. Produce initial project design
 - a. GUI designs
 - b. Main features
 - i. Secondary features (i.e. implement if we have time)
 - c. Programming language
 - d. Changes to software to hardware interaction?
3. Receive customer approval on initial design
